In Nepal you should eat only freshly cooked food. You should always wash your hands before eating, especially if you are eating things like biscuits and bread with your fingers. If you follow these simple rules, you should not experience any severe stomach problems. Before warned, however, that it is not unusual to have some mild diarrhea in Nepal while your system adapts to a new environment. If, however, you have diarrhea accompanied by severe cramps, high fever and chills, you may have a bacterial or parasitic infection that requires additional medication.

The hotels we use are known for their hygienic standards, and the food they serve should pose no health problems. If you eat in restaurants outside the hotel, you should follow the cooked foods rule. Salads and fruits that cannot be peeled should be regarded with suspicion. Open air sweets, dried fruits, local *chhang*, candy colored soda pop in the bazaar, and the wares of small pie shops are all tempting, but can harbor germs and parasites that can upset your stomach and ruin your trek.

During the camping trek, the Sherpa cook and kitchen crew thoroughly cook all food and wash dishes in boiling water. The most important consideration for staying healthy is to take extra care with your own personal hygiene. Keep your hands clean by washing them frequently in the washing water that we provide or by using frequently moist towels (Wash n' Dry').

Vaccination and Medical Supplies

It is advised to consult or get professional advice from travel doctor about vaccinations and obtain medical travel information beforehand. If your doctor makes recommendations contrary to the suggestions here, follow your doctor's advice, and obtain substitutes for these items. It is not necessary to burden yourself with a lot of medicines for the trek, though you should carry enough to take care of most situations.

Nepal Sanctuary Treks also provide a first aid kit on private treks that we organize, though you should bring your own aspirin, band aids, etc. If you are taking an extended trek, you should equip your party to deal with possible problems and emergencies.

Recommended Injections

- Cholera
- Typhoid-paratyphoid

Lack of acclimatization to high elevation could also be a risk factor. Our itineraries let adequate time for acclimatizing though it is possible that some individuals might be slow acclimatizers. The majority of our trips undertake at far-flung areas where you are away from normal emergency services and medical facilities. Though the cities visited on tour are generally safe during the day, there can be risks to roaming throughout any major city at night. We make every effort to ensure the fun and adventurous element of any water based activities like rafting if you wish to have on add on package.

The national language is Nepali, with different languages spoken in different parts. All of our guides are fluent in English, as do the porters at a more general level. English is widely spoken in cities, mainly among those involved in hospitality sector. While in remote parts, the local people you come across perhaps will not communicate in English.

Time Zone

Nepal is 15 minutes ahead of Indian Standard Time; 5 hours and 45 minutes ahead of Greenwich Mean Time; and 10 hours and 45 minutes ahead of Eastern US Standard Time. Therefore, when it is 12:00 noon (standard time) in New York, it is 10:45 PM in Nepal.

When you walk through arrival lounge you can see the booth on right hand side. The process is quite simple. All you need is a copy of passport and a passport size photo. Activation of the service is instant and Sim card comes with Rs. 50 talk time. For top ups you can purchase recharge card anywhere in Nepal.

The mode of communication like standard telephone system, fax and E-mail are easily accessible in Kathmandu and Pokhara. Whereas, communication services are not available while rafting and trekking. Most hotels sell stamps and have mail boxes for letters or postcards.

Stay alert from scam porter at airport

our custody during the trek. It will simplify our administrative procedures if you deliver both your passport and plane tickets to us at the same time.

International and Domestic Departure

It is advised to arrive at the airport one hour prior to scheduled departure for domestic travel and three hours for international travel. This allows plenty of time to check-in, obtaining a boarding pass, and clear security before scheduled departure.

Local Flights

All local flights are included in the cost of your tour unless otherwise noted. It is essential that you have your passport information at the time of booking so as to process these tickets. Internal flight tickets are issued locally and will be provided to you prior to the flight departure. The **weight limit** on domestic flights is 15 kg (33 pounds) *including hand luggage*. Because the aircraft are small, it is often impossible to carry extra baggage even if you are willing to pay for excess baggage. Please do not burden yourself with too much luggage. However, you can leave the luggage in Kathmandu hotel for free of charge.

Flight Delays

Everest, Jomsom, Jumla and Dolpo treks are dependent upon flights to the small (15000 foot runway length) **STOL** (short takeoff and landing) airstrip at these places. There are no navigational aids. All takeoffs and landing are contingent on a cloudless approach. Clouds can come in so fast that planes sometimes land in clear weather, load up, and have to spend the night for lack of visibility for takeoff.

Not only because of weather, but also because of other operational complications, flights are often delayed or cancelled. This can become a continuing delay going on for several days. Therefore, you must be prepared (bring a good book to read) for long waits at the airport in both Kathmandu and out of Kathmandu. It often happens that either the start or the finish of the trek (or both) is delayed by one or two days because of cancelled flights.

Some airlines have started helicopter service for those places but some time they also can't fly due to bad weather. Be assured that Nepal Sanctuary Treks does everything possible to avoid delays and to get you on the next flight if yours is cancelled, but you must be prepared for delays.

We recommend that you allow at least *two days in Kathmandu* at the end of your trek to provide a cushion for flight delays before any onward reservations or other travel plans. For an example if the start of an Everest trek is delayed so long that it upsets your onward travel schedule, we will suggest that you consider an Annapurna or Langtang trek as an alternative.

- Do not leave electrical equipment running – lights, fans, air conditioners
- Try to carry eco- friendly bag during travel and shopping which will help to send less amount of waste to landfills.
- Be economical in using fresh water for showering and washing as often they are in short supply. Be sensible while using hot showers heated by solar energy, by hydroelectricity or by the back-boiler method
- Try not to spoil plants along the trail and wild animals should not be touched, fed or disturbed.
- Carry water bottle that can use constantly to refill it instead of buying plastic bottles.
- If you generate non-biodegradable waste during trekking (batteries, shampoo & sun block containers plastic bags, toothbrushes, etc.) bring it back with you and dispose in designated separate places. Sanitary pads and tampons should be wrapped well and packed out. Don't put debris in the bonfire until the cooking is done because fire is considered sacred.
- We suggest all travelers to join us in seeing that no litter is left along trails. Our trekking crew will collect the garbage and dispose to the nearest facility or city.
- Use eco-friendly soaps, detergents and use pan for rinsing while bathing or washing near streams and throw soapy water away from the water source.
- You can also reduce firewood consumption by ordering the same food at the same time as others.
- Bring adequate clothes rather than depending on lodge fireplace for heat and never ask your trekking staff for a bonfire.

Economy

- Buy local products or souvenirs made locally
- Eat in local restaurants, shop in local markets, buy local fruit, etc. to support local traders and farmers
- Consider tipping a rational amount for good service.
- Resist giving money to beggars; it is rather more effective to grant money to local charity. As begging only encourages local people to continue asking tourists for money.
