## Trip Overview

Ruby Valley Community and Spiritual Trek is authentic and one of the least explored hidden trekking routes in Nepal. This region is not explored extensively and provides the experience of pristine traditional Tamang and Gurung villages, their culture and lifestyle. If you wish some first-hand experience than tourist hub trek routes, then Ruby Valley Trek is the one to explore.

It is an exceptional and distinctive trek, just like the precious stone Ruby itself. Termed after the valuable stone Ruby, Ruby Valley is considered home to Ruby stone mine sites. The trek is comparatively a new trekking destination newly opened. The entire region has high deposits of minerals, including ruby, the red precious stone.

The region host diverse communities such as Brahmin, Chhetri, Gurung, Magar, Newar, Tamang, etc. But Tamang who are Buddhists forms the majority of settlers. The trail Ruby Valley winds through varied landscape and walking conditions as it comprises almost flatlands, terraced farms, steady and steep ascents and spectacular scenery of lush woodland and towering snow-capped peaks. The trek presents an exceptional experience of mountain, culture and natural biodiversity.

You will witness the famous Himalayan peaks like Mt. Ganesh I, locally called Yangra peak (7,422m), Ganesh II (7,118m), Lapsang Karbo (7,043m), Pabil (7,104m), Mt. Manaslu and Langtang. Penang Pass (3,850 m/12,631 ft); is another highlights on the Ruby Valley Community Trek where we will have superb views of beautiful valleys and soaring mountain ranges comprising Ganesh Himal, Annapurna, Manaslu, and Langtang

This trekking trail has currently come into practice where the ethical groups of people exist and carry out the ancient ethical and medicinal practices. The people perform shaman practice which provides extra exploration and understanding on this trip. You will get a chance to learn the spiritual practice which is another best part of this trek

The unexplored trekking trail offers you the chance to discover some very far-flung areas in Nepal. Meanwhile, this is a very new trekking trail in Nepal, lodges, and guesthouses have not been established yet so homestay is the mode of accommodation, which lets you get a first-hand experience of Nepalese countryside life as you stay with locals and share their food. The communities open their homes to visitors and afford local experiences that allow you to engross yourselves into local life, creating a cultural exchange and the opportunity to learn different traditions.

### **Drinking Water and Food**

Since we are concern on environment, we strongly recommend all client to avoid the use of plastic mineral water bottles. Most hotels provide filtrated drinking water in each room. However, it is advised to carry purification tablets or Steripen to treat the tap and stream water as untreated water is not safe to drink anywhere in Nepal. During your stay at lodge or if you run out of drinking water along the trail then you can get boiled water from teahouse lodge with minimum charge.

In Nepal you should eat only freshly cooked food. You should always wash your hands before eating, especially if you are eating things like biscuits and bread with your fingers. If you follow these simple rules, you should not experience any severe stomach problems. Before warned, however, that it is not unusual to have some mild diarrhea in Nepal while your system adapts to a new environment. If, however, you have diarrhea accompanied by severe cramps, high fever and chills, you may have a bacterial or parasitic infection that requires additional medication.

The hotels we use are known for their hygienic standards, and the food they serve should pose no health problems. If you eat in restaurants outside the hotel, you should follow the cooked foods rule. Salads and fruits that cannot be peeled should be regarded with suspicion. Open air sweets, dried fruits, local *chhang*, candy colored soda pop in the bazaar, and the wares of small pie shops are all tempting, but can harbor germs and parasites that can upset your stomach and ruin your trek.

During the camping trek, the Sherpa cook and kitchen crew thoroughly cook all food and wash dishes in boiling water. The most important consideration for staying healthy is to take extra care with your own personal hygiene. Keep your hands clean by washing them frequently in the washing water that we provide or by using frequently moist towels (Wash n' Dry').

Though the cities visited on tour are generally safe during the day, there can be risks to roaming throughout any major city at night. It is our recommendation to stay in small groups and to take taxis to and from restaurants, or during night time excursions.
- Protests and demonstrations, even those that are well intended, have the possibility to turn fierce without warning. If you are in an area where there are rally of demonstrators or protesters, leave the area immediately.
- Water based activities have a component of hazard and excitement built into them. We suggest only participating in water based activities when accompanied by a guide(s). We make every effort to ensure the fun and adventurous element of any water based activities like rafting if you wish to have on add on package.

on domestic flights is 15 kg (33 pounds) *including hand luggage*. Because the aircraft are small, it is often impossible to carry extra baggage even if you are willing to pay for excess baggage. Please do not burden yourself with too much luggage. However, you can leave the luggage in Kathmandu hotel for free of charge.

### Flight Delays

Everest, Jomsom, Jumla and Dolpo treks are dependent upon flights to the small (15000 foot runway length) **STOL** (short takeoff and landing) airstrip at these places. There are no navigational aids. All takeoffs and landing are contingent on a cloudless approach. Clouds can come in so fast that planes sometimes land in clear weather, load up, and have to spend the night for lack of visibility for takeoff.

Not only because of weather, but also because of other operational complications, flights are often delayed or cancelled. This can become a continuing delay going on for several days. Therefore, you must be prepared (bring a good book to read) for long waits at the airport in both Kathmandu and out of Kathmandu. It often happens that either the start or the finish of the trek (or both) is delayed by one or two days because of cancelled flights.

Some airlines have started helicopter service for those places but some time they also can't fly due to bad weather. Be assured that Nepal Sanctuary Treks does everything possible to avoid delays and to get you on the next flight if yours is cancelled, but you must be prepared for delays.

We recommend that you allow at least *two days in Kathmandu* at the end of your trek to provide a cushion for flight delays before any onward reservations or other travel plans. For an example if the start of an Everest trek is delayed so long that it upsets your onward travel schedule, we will suggest that you consider an Annapurna or Langtang trek as an alternative.

### Feedback Form

After your trek, we want to hear from you! Your feedback information is essential to improve our service.

## **Cultural and Environmental Considerations**

Nepal Sanctuary Treks is committed and aware to reduce impact on the environment through waste release reduction, energy efficiency, supporting sustainable practices among clients

We are closely working with Travelife and get recognition of Travelife Certified on January 19, 2019. Furthermore, we adhere International Porter Protection Group 5 guidelines and collaborated with Kathmandu Environmental Education Project (KEEP).

In this consideration, we have developed Responsible Travel Policy which aims to ensure that Nepal Sanctuary Treks and its clients can conserve and maintain natural resources and seek to prevent pollution while trekking to the destination.

### **Environment**

- Do not buy the artifacts, antique and products made from endangered species.
- Do not leave anything behind like rubbish in any form i.e. water bottles, Coke/ cold-drink cans, cigarette butts, chewing gum, snack packets etc.
- Do not damage natural environment: break trees, trample on flora
- Do not leave electrical equipment running – lights, fans, air conditioners
- Try to carry eco- friendly bag during travel and shopping which will help to send less amount of waste to landfills.
- Be economical in using fresh water for showering and washing as often they are in short supply. Be sensible while using hot showers heated by solar energy, by hydroelectricity or by the back-boiler method
- Try not to spoil plants along the trail and wild animals should not be touched, fed or disturbed.
- Carry water bottle that can use constantly to refill it instead of buying plastic bottles.
- If you generate non-biodegradable waste during trekking (batteries, shampoo & sun block containers plastic bags, toothbrushes, etc.) bring it back with you and dispose in designated separate places.

Sanitary pads and tampons should be wrapped well and packed out. Don't put debris in the bonfire until the cooking is done because fire is considered sacred.

- We suggest all travelers to join us in seeing that no litter is left along trails. Our trekking crew will collect the garbage and dispose to the nearest facility or city.
- Use eco-friendly soaps, detergents and use pan for rinsing while bathing or washing near streams and throw soapy water away from the water source.
- You can also reduce firewood consumption by ordering the same food at the same time as others.
- Bring adequate clothes rather than depending on lodge fireplace for heat and never ask your trekking staff for a bonfire.

### **Economy**

- Buy local products or souvenirs made locally
- Eat in local restaurants, shop in local markets, buy local fruit, etc. to support local traders and farmers
- Consider tipping a rational amount for good service.
- Resist giving money to beggars; it is rather more effective to grant money to local charity. As begging only encourages local people to continue asking tourists for money.

### **Cultural Code of Conduct**

- Use both hands to show gratefulness and respect whether you are giving or receiving as a gesture of respect, even if it is money. Always greet people with word "Namaste" by joining both hands together.
- Don't offer food to locals after tasting it, nor eat from a common plate, and avoid touching your lips to a shared drinking pot.
- If you need to use your fingers to eat, then use your right hand as justify hand is considered polluted.
- Never point your finger at a person and particularly to religious monuments, temples instead use the flat back of your hand to indicate the person or a sacred object. Never touch people on the head nor should you touch or point your feet at people because it denotes show of disrespect and insult.
- Walking around temples or stupas is traditionally done clockwise.
